Specifications:

- 1 Live material not intended to bleed must be kept at least 3/8" from all sides to allow for trim. Live image area for full page ad is 7 5/8" x 10 1/8".
- 2 PDF/X-1A files are preferred. Submit a proof with your ad submission; by choosing not to, the color reproduction will be based on industry standard best practices to achieve as accurate color as possible from the supplied digital file. Electronic files are to be sent in Macintosh format only. Accepted programs include, Photoshop, Illustrator and InDesign. Include all PostScript and screen fonts. Include all images as JPEG or TIFF in high resolution (at least 300 DPI at 100 percent) as CMYK. If files are not provided as CMYK, then we will be forced to convert the color and we cannot guarantee an exact match of color on press.
- 3 Double-page spreads: Perfect alignment of type or design across the gutter of two facing pages is not guaranteed. Live matter in the facing-page subject cannot be closer than 3/8" to the gutter.
- 4 Full-page ads: Must include 1/8" bleed on all sides. When you PDF your ad, go to "Marks and Bleeds" and set offset to 0.25 inches. Make sure to check "Crop marks" and "Bleed marks."
